FIRST ANNOUNCEMENT

WELCOME MESSAGE

Dear Colleagues,

I welcome you to the latest Assisted Reproductive Technologies (ART) Workshop organized by O&G Partners Fertility Centre. This is the third ART Workshop held in Gleneagles Hospital, Singapore. The first ART Workshop was held on 12th - 13th May, 2006 followed by the second Workshop on 5th - 7th June, 2008. The current Workshop has now evolved into the Gleneagles-LIFE ART Workshop series which will be held at the Traders' Hotel, a 10-minute walking distance to the Gleneagles Hospital.

We are honored to have an illustrious international Faculty comprising Professor Paul Devroey (Brussels, Belgium), Professor Roger Hart (Perth, Australia), Professor Pak-Chung Ho (Hong Kong), Dr Peter Brinsden (Bourn Hall, England), and Professor Markus Montag (Bonn, Germany). There will also be an Advanced Session on the afternoon of 2nd September to discuss new advances in reproductive medicine.

In conjunction with the ART workshop, we have organized a Hands-on Workshop on 2nd - 3rd September. This Hands-on Workshop is limited to 20 participants and will encompass development of laboratory skills with an emphasis on embryo culture systems, micro-manipulation and cryopreservation.

The Gleneagles-LIFE ART Workshop will be a good introduction for those colleagues who are thinking of joining the field. For the more experienced colleagues, this Workshop will be an opportunity to update as part of CME.

For our overseas participants, we hope that you will take the opportunity to come to Singapore to network, make new friends and also to renew old friendships. In addition, you are also welcome to experience Singapore's new to-be-opened Integrated Resorts in Sentosa Island and in Marina Bay as well as to indulge in many new experiences in shopping, entertainment and dining.

Soon-Chye Ng, MD, FRCOG

Adjunct Professor, NUS & NTU

Chairman, Organizing Committee

LECTURES

1 SEPTEMBER 2010, Wednesday

- 0745 Registration
- 0830 Welcome Address
CEO, Gleneagles/Prof S C Ng
- 0845 Ovarian Stimulation for ART
Prof Paul Devroey
- 0915 Management of Abnormal Responses in Stimulation & other Complications in ART
Dr Peter Brinsden
- 0945 Poor Responders – Strategies
Prof Paul Devroey
- 1015 Current Concepts of Multiple Pregnancy Reduction & Corpus Luteum Function in ART
Prof Pak-Chung Ho
- 1045 Tea Break
- 1115 Fertility Preservation
Prof Paul Devroey
- 1145 Cryopreservation of Ovaries, Oocytes & Embryos
Prof Markus Montag
- 1215 Group Photo
- 1245 Lunch Break
- 1345 Current Concept of Ovarian Reserve
Dr Peter Brinsden
- 1415 Physiological Requirements of Preimplantation Embryos & Metabolomic Profiling
Prof Markus Montag
- 1445 Bio- and Gene-Markers for Human Embryo Development and Viability
Dr Paul Robson
- 1515 Tea Break
- 1545 Case Discussions
Prof Ng Soon Chye
- 1800 End of Lecture
- 1900 Welcome Dinner

2 SEPTEMBER 2010, Thursday

- 0800 Live Demonstration (direct telecast): OR & ER
Venue: Gleneagles Hospital Auditorium
Dr J Kumar / Dr LC Foong
- 0930 Polycystic Ovarian Disease, Obesity & ART
Prof Roger Hart
- 1000 Tea Break
- 1030 Patterning in Pre-Implantation Embryos
Prof Davor Solter
- 1100 Improving Embryo Quality in the Laboratory – Current & New Strategies
Prof Markus Montag
- 1130 Improving Outcome of Assisted Conception in Older Women
Prof Roger Hart
- 1200 ART Pregnancy Rates & Outcomes
Dr Peter Brinsden
- 1230 Lunch
- SPECIAL LECTURES: CLINICAL ADVANCES
- 1330 New Strategies & Approaches to Ovarian Stimulation for ART
Prof Paul Devroey
- 1415 Polycystic Ovarian Disease: A Lifestyle Approach to Treatment
Prof Roger Hart
- 1500 Novel Ways to Improve Pregnancy Rates
Prof Pak-Chung Ho
- 1545 Tea Break
- 1615 In-Vitro Maturation of Oocytes
Prof Pak-Chung Ho
- 1700 Surrogacy
Dr Peter Brinsden
- 1745 Single Embryo & Blastocyst Transfers
Prof Tong Guo Qing
- 1830 Certificate Presentation for Lecture-only Participants
- 1845 End of Lecture

HANDS-ON PRACTICAL

2 SEPTEMBER 2010, Thursday

- 1315 Vitrication of Oocytes/Embryos
Prof Markus Montag
- 1530 Tea Break
- 1600 Cryopreservation of Embryos
- 1730 End of Practical

3 SEPTEMBER 2010, Friday

- 0800 Embryo Culture Systems – from Basic to Advanced
Prof Markus Montag
- 0900 Embryo Culture Systems
- 1030 Tea Break
- 1100 Micromanipulation Techniques:
 - PB Biopsy
 - Blastocyst Biopsy*Prof Markus Montag / Dr Liow Swee-Lian / Dr Chen Nai-Qing*
- 1230 Lunch Break
- 1330 Micromanipulation Techniques:
 - ICSI
 - Assisted Hatching – Acid Tyrode & Laser*Dr Liow Swee-Lian / Dr Chen Nai-Qing*
- 1700 Certificate Presentation to Hands-on Participants
- Closing Remarks
